

Procedure and Checklist for Water Connection

PROCEDURE:

- The water connection for construction at any particular site is sanctioned by the respective Department after the building plans are approved by respective authority.
- The application forms for water supply connection are available in the respective department for the areas under their jurisdiction. **Tapping Ferrule on the street water supply line for making house water connection without getting the water connection sanctioned from the competent authority, is illegal which will attract penalty and other suitable action.**
- After obtaining occupation certificate from Estate Office of respective authority and Sewerage connection from the competent authority, the allottee is required to intimate the concerned office/ department about the date of sanction of sewerage connection/ occupation, make, reading and Sr. No. of water meter installed at its premises so that water bill may be issued on the basis of meter reading, thereafter.
